Date: Thursday, February 9, 2017 2:14:10 PM

Hi Evan. Happy New Year!

Last week I received notice of an open record hearing for the MI Treehouse project at 5637 East Mercer Way (File No. CAO 15-001). The project will apparently require filling at least a portion a Category III wetland and that activity will require state approval. Bill Summers of MI Treehouse is listed as the applicant and I wrote to Mr. Summers asking that he submit an application to Ecology and the Corps for the proposed wetland fill. I haven't heard back and I was wondering if it is still possible to have comments entered into the record for this project.

If so, I would ask that the City add the following condition to approval of this proposal: The applicant shall obtain all necessary state and federal authorizations for wetland and in-water impacts prior to beginning any ground disturbing activities or vegetation removal.

Please let me know if you have any questions or if I can be of any assistance to the City in the review of this project.

Paul
