Re: AC39 vs AC75 for Protected/Overburden Roof Assemblies

Dear Ms. Hogue,

In response to your request, concrete paver assemblies are approved for use over IB PVC Single Ply roof membranes when installed in accordance with current IB Roof Systems Specifications and Construction Details.

IB offers warranty terms up to 25 years on the IB roof membrane and IB brand accessory components used in these assemblies when installed in accordance with the terms and conditions of our Warranty Program. Overburden options vary according to project design and selection, and are subject to warranty coverage as provided by their respective suppliers.

If we can be of further service please let me know.

Respectfully,

Phillip M. David, RRC, CDT
Director of Technical
IB Roof Systems
