DO I NEED A LICENSED SURVEY FOR A PROJECT?

Although site boundary and topographic information are always required, a licensed survey may or may not be required for your project. Use the chart below as a guideline for determining if a licensed survey will be required by starting with question #1 and continuing down the page. This chart is intended to be a guideline only – for specific determination on whether or not a survey will be required for your project contact a planner.

If you still have any questions about whether or not a survey is required or why this chart says that you need a survey, please contact Development Services Group Planning line (206) 275-7729.
