Reviewer: City of Mercer Island

Subject: Renewal of Building Permit

Please find the following information for the proposed residential plan by Anderson Architecture, Project # 12-12.101.

Renewal of Expired Building Permit:

To whom it may concern:

It has been brought to my attention that the City of Mercer Island Building Permit # 1306-055 and DEV13-022 was not renewed before its expiration on October 17, 2019. At this time, the framing of the building under these permits is approximately 95% complete, as is the majority of the earthwork for this project. I have been told that I should complete the General, Lot Coverage, and Hardscape sections of the Site Development Worksheet for single family residential development. Along with that information, I am submitting a revised site plan, and a Permit Application to the City. I will also include the full set of approved plans for the City to reference as necessary.

I trust that this information will be sufficient for this matter, and please call me if I can answer any questions regarding this project.

Sincerely,

Leif Anderson
