Subject: CREATION OF A COMPLETELY NEW ZONE IN THE RESIDENTIAL NEIGHBORHOODS

To Mr. Evan Maxim & all Members of the Mercer Island Planning Commission: Carolyn Boatsman, Tiffin Goodman, Daniel Hubbell, Jennifer Mechem, Lucia Pirzio-Biroli, Craig Reynolds, and Ted Weinberg

As a Mercer Island homeowner for 51 years, I am deeply concerned about the proposal of combining the footpaths of two island organizations (JCC & FAS) & a planned expansion of the JCC's that will eventually be using land on both sides of East Mercer Way (an already busy & dangerous main street). It seems the way the proposal is currently worded it will be possible to include multi-family homes to be built in a single family residential area. This proposed zone change would allow encroachment into the current single family residences, something to which most Mercer Islanders have expressed a very negative reaction to allow.

Therefore, I ask you to deny any such zone change in order to preserve the current status quo for the current homeowners & residents.

Respectively,

Betty Morgan

4316 Island Crest Way

P.S. I had hoped to email each Planning Commissioner separately with this letter, but their email addresses were not published on the City's online information.
