

SPORTBASE™

CHAMPIONSHIP-TESTED

Eliminate concrete

Eliminate the need for a concrete pad and create a portable playing surface with SportBase. SportBase can be installed over almost any flat prepared surface, helping you avoid landscape restrictions and the use of heavy machinery during installation.

Eco-friendly

Make your outdoor court "green" with SportBase. SportBase is made is from 100% recyclable polypropylene, saves energy use in installation and reduces carbon emissions. The average SportBase installation saves the energy equivalent of the amount of electricity used in a typical US home in one year while reducing carbon emissions equal to driving 5,600 miles in your car.

Increased Safety

SportBase is designed to provide players with 3 times the shock absorption of any other outdoor court system. It provides the highest head-impact rating to help protect against injuries from falls.

Proud to be the official court of the most demanding athletes in the world.
