

Dear Plan Reviewer,

For the construction permit of a new single family residence at 8003 SE 20th St Mercer Island, WA 98040, the owner, Redmond Builders LLC is requesting a fire code alternate for the following deficiency identified by the fire department:

1. Road width is less than 26' wide (20')

To mitigate this deficiency, Redmond Builders LLC proposes to use the following measure in the new single family residence:

1. Install a NFPA 72 "Household" Monitored Fire Alarm

We believe the proposed is equal to or better than the code requirement. If you have any questions, please do not hesitate to contact me.

Thanks,
