**Subject: Geotechnical Plan Review  
Pratt Plat – Lot 1  
7911 SE 72<sup>nd</sup> Place  
Mercer Island, Washington**

**Reference: PanGEO Geotechnical Report  
Proposed Short Plat, 7233-80<sup>th</sup> Avenue SE, Mercer Island,  
Washington, dated April 28, 2016**

Dear Mr. Giesbrecht,

As requested by Scott McMillen of Architectural Innovations, P.S., PanGEO reviewed the following design documents for the subject project:

- Lot 1 architectural plan set prepared by Architectural Innovations, P.S. dated 08/03/2021.
- Lot 1 structural plan set prepared by Mulhern+Kulp dated 6/16/2021.

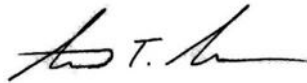

Based on our review, it is our opinion that the above-referenced plans incorporated all substantial geotechnical recommendations outlined in our above referenced geotechnical report dated April 28, 2016.

We trust that the information outlined in this letter meets your need at this time. Please call if you have any questions.

Geotechnical Plan Review  
Pratt Plat, Lot 1; 7911 SE 72<sup>nd</sup> Place, Mercer Island, WA  
August 5, 2021

---

Sincerely,

Steven T. Swenson, L.G.  
Project Geologist

Siew L. Tan, P.E.  
Principal Geotechnical Engineer
