2 2 2	PROJECT ALERTS: Construction of the project shall be from approved plans only. No deviation from the approved project plans is allowed without prior								
≱┞	Construction of the project shall be from <i>approved plans only</i> . No deviation from the approved project plans is allowed without prior approval from the City of Mercer Island. Approved plans must be kept on site and maintained in good condition.								
Refer to "Conditions of Permit Approval" provided at permit issuance for required construction rules and regulations, including: Site Considerations Row restrictions Planning Requirements Planning Requirements Noise Abatement Certification Acess Road Requirements Water Service Requirements Refer to "Preconstruction Meeting Checklist" provided at the preconstruction meeting for development related requirements.									
2 2 2	Erosion control measures must be as shown on approved project drawings. All erosion control is to be in place and inspected								
╁	TREE PROTECTION REQUIREMENTS:								
ľ	Tree protection as shown on approved drawings shall be installed at tree dripline prior to start of any site work and								
	must remain in place throughout the project. ✓ No trees shall be cut without a City of Mercer Island tree permit. ☐ Replacement trees must be a minimum of six feet tall at installation. They must be planted and approved prior to final inspection. ☐ For this project, ☐ trees are authorized to be removed and replaced with ☐ trees. ☐ This project appears to be within a protected eagle nest area. Contact Federal Fish and Wildlife at (360) 534-9304 or visit their website at http://www.fws.gov/pacific/eagle								
	FIRE PROTECTION REQUIREMENTS: Separate Permits are required for ALL fire protection systems. For more information, see http://www.mercergov.org/Page.asp?NavID=2614								
ľ	☐ Fire Sprinkler ☐ Monitored Household	1							
	□ NFPA 13D Fire Alarm per NFPA 72 □ Plus □ Monitored Sprinkler								
	☐ NFPA 13R Water Flow Alarm								
	☐ NFPA 13 ☐ Other: ☐								
	□ FCA2 □ FCA4								
		ł							
	WATER SUPPLY REQUIREMENTS:	1							
	Fire sprinkler design calculations must be provided prior to determining water supply system requirements.Water Supply system upgrade required								
	☐ City Installation. ☐ Applicant Installation.								
	Required Service Line Size: Required Supply Line Size: Required Meter Size:								
	(water main to meter) (water main to house) Abandonment of existing service and meter required at main.								
	Pressure reducing valve required if pressure exceeds 80 psi.	8							
	✓ Reduced pressure backflow assembly (RPBA) required for all lots with waterfront or non-city water supply (private wells or lake irrigation).								
	Additional water supply requirements:								
	DRAINAGE REQUIREMENTS:] [
	☐ On site detention system required. ☐ Direct discharge into the lake. ☐ No Storm Water parmit required.								
	 □ On site infiltration system required. □ As-built Utility drawings required. □ Connection to public storm drainage conveyance system req'd. 								
<u> </u>	☐ Full Size drawings required. ☐ Other:	{							
; -	SIDE SEWER REQUIREMENTS:								
-	Side sewer requires a backflow preventer when connecting to the lake line or when the elevation of the lowest plumbing fixture is lower than the elevation of the upstream manhole rim or when side sewer is shared with one or more properties.								
	☐ Video tape of existing sewer required (see standard details)								
	New connection.□ Connect to existing.□ Other:□ Other:								
	Note: When side sewer is to be connected to the lake line you will need to schedule three (3) days in advance with the City of Mercer Island Maintenance Department at (206) 275-7800.								
ŀ	APPROVED CODE ALTERNATIVES:	i							
	Code alternatives must be Inspected. Refer to the Inspection Checklist								
	□ CA1: □ CA2:								
		1							
	SURVEY REQUIREMENTS (The following survey information must be submitted when checked):	1							
_	Surveyor shall verify points chosen for height calculations and point verification shall be submitted at the time of City foundation Inspection. A property survey may be required to verify setbacks and in some cases buildings must be surveyed onto the lot. The City	1							
	reserves the right to request an impervious area survey at any time prior to issuance of Certificate of Occupancy.	1							
	Surveyor:Phone:Phone:								
	☐ Building setback survey								
	☐ Impervious surface survey☐ Other:								
	MAXIMUM 40 PERCENT ALTERATION INSPECTION: MICC 19.01.050(D)(1)(b)(i)								
	A Building Inspection prior to demolition is required for all legally nonconforming single family dwelling to ensure no more than 40 percent of the dwelling's exterior walls are structurally altered. Contact the Building Inspector at (206) 275-7730.								
	☐ Civil / Drainage ☐ LUP / Setback requirements	1							
	GEOTECHNICAL INFORMATION:	1							
	Land clearing, grading, filling and foundation work within geologic hazard areas is NOT PERMITTED between October 1 and April 1 without an approved Seasonal Development Limitation Waiver.	1							
Ī	Geotechnical Report provided. All construction must comply with the recommendations of the Geotechnical Report. A copy of	1							
	report and other geotechnical information must be kept on site at all times.								
	Geotechnical Engineer Phone								
	SEASONAL DEVELOPMENT LIMITATION RESTRICTION: Applies (Geologic Hazard area). Grading not permitted between October 1 through April 1.								
COINITILL	☐ Waiver approved. Grading and excavation permitted subject to all conditions noted in Seasonal Development	}							
	Limitation Waiver Permit.	;							
	Permit number Approved by Date
