

Intake – Geotech deferral

6024 SE 22nd St

5.5.22

Our most recent intake rejection notes indicated only one item of concern. That item was from BUILDING (Gareth Reece). Per my telephone conversation with Gareth today (5/5/22 at 2:30pm), this item may be deferred and no longer hold up intake.

The item in question was a required update to our Geotech letter. We will in fact have our Geotech letter updated (per request) and submitted as soon as possible to prevent any further delay down the road. We realize if we do not have it submitted prior to review, this item will resurface.

Thank you,

A handwritten signature in black ink that reads 'Matthew Mawer'.
