

Stoney Point Engineering

March 27, 2023

Building Official
City of Mercer Island
9611 SE 36th Street
Mercer Island, WA 9804

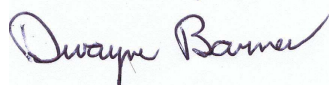

Subject: Foundation Letter
MI Treehouse
5637 East Mercer Way
Mercer Island, WA 98040

To whom it may concern:

In accordance with your request, I have reviewed the foundation for potential settlements, lateral deformations, and lateral loads. The structural slab and grade beams are reinforced to accommodate these loads and keep the building from collapsing should it slide from its proposed location.

If you have any further questions please don't hesitate to call me at (425) 644-9500.

Sincerely,

Dwayne C Barnes, PE
President
Stoney Point Engineering
