Re: City of Mercer Island building official comments review for Helix Homes
residence located at 6922 SE 33rd St., Mercer Island, WA 98040

CK Engineering LLC Ref. # 22-021

Dear Mr. Mawer:

CK Engineering LLC reviewed the City of Mercer Island plan review comments regarding additional perimeter foundation surcharge as well as the sloped soil surcharge within the crawlspace on designed retaining walls.

We have reviewed revised building sections on A10, and it is our opinion that our originally proposed retaining wall design is adequate for current conditions.

CK Engineering LLC appreciates your business. Please contact this office if you have any questions or concerns.

Sincerely,

Pasko Kesovija
