RE: Plan Review
Proposed Addition
7545 E. Mercer Way
Mercer Island, Washington

In accordance with your authorization, Cobalt Geosciences, LLC has prepared a plan review letter for the project. We have reviewed architectural plans by Atlas Architects dated November 4, 2022 and structural plans by FT Eng. And Construction Management, LLC dated November 6, 2022

We have no comments at this time. We should be on site during construction to verify soil bearing of any new foundation elements, any structural fill placement and compaction, and any subsurface drainage installation.

Please contact us if you have any questions.

Sincerely,

Cobalt Geosciences, LLC

12/7/2022
Phil Haberman, PE, LG, LEG
Principal
