HM

Hi Herschel,

I confirmed with planning that you will not need to provide a separate CAR land use application for the CAR1 review. You don't need to fill out any additional forms related to it; you will just need to include the information related to the critical area in your next submittal. I think you'll need to talk directly to Grace in planning if you need more info about what to supply to meet the criteria. But I can tell you that you don't have to fill out an application or pay another application fee.

Hope that helps!  
Holly
