Hi Norine

We understand that the permit 2103-051 is expired on 10/29/2022 and we have to start over the project. However the resubmitted plans and documents are prepared for addressing the review comments on correction drawing file <2103-051-SUB1-PLANS_review.pdf> and public comments of permit 2103-051. We hope the review team can take the previous review comments into consideration and avoid overlappign efforts during the next review cycle.

Thank you,
