Subj.: Permit Intake Comment Response Letter

This letter is a response to the Intake Comments document for rejected building permit intake #2308-239 dated 8/30/2023 and is submitted with our re-uploaded plan set and supporting documents.

The structural lateral design calculations are contained in the filed named 2023-8-18 Ehrhard struct calcs.pdf. The additional period and apostrophe in the original file name have been removed in case they create issue in the permitting system.

Sincerely,

Brad Sturman
