PROJECT NARRATIVE

8541 SE 82ND ST / Permit # 2406-148

Hello Mercer Island Permitting,

The proposed project is a renovation of an existing single-family residence including:

- An interior remodel with new fenestration, finishes, plumbing fixtures, and built-ins with some structural work per plans to reconfigure parts of the existing layout.
- A conversion of an existing carport into a new attached garage with a utility room. Existing footprint and roof structure of the existing carport to remain in place with a small horizontal addition of 199 square feet.

Respectfully submitted,

Stefan Hampden
Principal, CAST architecture
