Hi Matt,

One more thought about this. I'm attaching a copy of an updated spreadsheet showing that list of required permits. During the review process, the building permit requirement was eliminated, and we decided to issue just one tree permit to cover the whole project instead of three permits (one for the ROW and two for the residential properties). Let me know if you have any questions.

Thanks,
Holly

Hi Holly,

Below are the answers to the questions from your email. Let me know if you need anything further.

1. 7714 N. Mercer Way- 3 CY cut, 415 CY fill
2297 78th Ave SE- 4 CY cut, 137 CY fill
2. Currently, ST plans to apply for this permit at a later date.

Matt

Hi Matt,

I'm working on preparing fees for your permit package and I have a couple of questions.

1. Please provide the total amount of grading in cubic yards for each residential lot. This would be cut + fill, or total earth moved for each lot. I'll need that to be able to calculate the fee for those permits. Once I have that information, I can issue an invoice for the fees for the ST permit package related to 2010-186
2. Regarding ROW #3 (KC Bus Shelter(s) Installation on N Mercer Way) on the attached spreadsheet – will King County be applying for this permit at a later date? Or is Sound Transit going to handle that application?

Thanks for your help,
Holly
