Address 2906 74th Ave SE

Owner/Resident unknown

Detail of your concerns:

The home next door was sold and the construction crew put up a significant amount of fencing/barricades/signs of surveillance cameras which appear to be to hide their work. In the last few days, framing has gone up for a significant extension off of the back of the home. I haven't seen any posted signs externally to notify the neighborhood that they had received a permit for the extension work. They have also gutted the home from what I can see.

Does this concern involve a permit issued by the City? Yes

If known, please provide permit number and type:

Has this concern been reported previously? Yes

If yes, to whom was the concern reported and what action(s) resulted?

When I talked with Kendra at the City she looked up the address and shows a cease and desist order back in October was filed because they didn't have a permit for the work they were doing at the time. They have been consistently working on this home since then and all through the holidays. They start work around 6 am every day and continue late into the evening.

Have you or your neighbors spoken with the individual(s) in question in order to resolve the problem? No

If yes, what was the outcome?

They quickly come and go and replace the fence as quickly as possible. There hasn't been an opportunity to talk to them, nor does it seem safe.
