No cost to the public safety agency, because they already posses the access control device [KEY]— Their own radio transceiver.

Don't risk untimely delays during an emergency response. Every second counts so forcing the emergency responder to STOP their vehicle to enter a code, activate a key, or not get in at all can have a catastrophic outcome.

Operate both gates and doors for a comprehensive overlay emergency access response.

Features and benefits of the NEW Click2Enter-I.V4:

- ✪ Mutual Aid Control
- ✪ Stealth Operation
- ✪ Improved Response Time
- ✪ Officer Safety Friendly
- ✪ Provides Increased Security Over Light & Siren Systems
