Exhibit 27 - Page 1 of 2

We have approved the gate, motor, and opening system, but there may be a question about which way the gate swings. The gate, as stated in my earlier emails to Chris must swing across into his property, not the ROW or other properties. I remember a conversation where this was stated but for some reason I can not find detail on the plans...

I know that David was working on this, and I also called Chris to verify. More to follow.

Hi Jeromy,
Did you get a chance to review this plan? He is anxious to get the permit.
Thanks!
Linda

Hi Linda,

I haven't heard from the permit technician with a copy of the permit for me to sign. Is there someone I should contact or can you help check with them?

Thanks,
--Chris
