Vehicle Information (license plate, make and model, color, year)

If known, please provide your Animal Case Number

Time and Date of Incident

- A. Date (mm/dd/yy) 08/29/22
- B. Time (hh:mm) 07:45
- C. AM / PM PM

City

Mercer Island

Address / Name of Location where incident took place

on the street SE 71st Street near 7520 SE 71st

Description of Incident (please provide a detailed description)

I was walking my dog on leash down the hill - a miniature dachshund - as we approached the intersection (our street has a loop in it where you can walk around in a circle), Ms. Quan's Dog, Auston, came racing around the corner with leash attached but no one holding the leash - he ran straight at me and Merlin, my dog, and was at my feet - I picked up my dog and Auston bit me on my upper right thigh/buttocks - the owner's mother had been walking the dog and had apparently let go of the leash - I yelled to her to take the dog away - but it seemed that she did not understand English - I told her that her dog just bit me but she did not seem to understand - at that moment, Molly, the owner came driving down the hill, and I was very upset - I told her what happened and that her dog just bit me - she said she was sorry - I went home .

Describe offending animal (cat, dog, other – include breed, sex, color, size)

Dog - I don't know the breed - medium/large size - gray and white - male

Bite information (for humans only)

If you were bitten,
please

- A. describe the area(s) the upper right thigh/buttock that were inflicted.

- B. Did the bite break the skin? the bite apparently did not break the skin, but left a welt and is painful
- C. Was medical attention sought? I am sending a MyChart message to my doctor
- Were sutures required or did a
- D. physician not suture No for cosmetic recovery reasons?
