Application Forms
Retaining Wall Project

I have assembled the documents requested during our September 4, 2018 Pre-Application meeting.

- 1) Building permit: "PIN4045100085-Building Permit2.pdf"
- 2) Critical Access Determination (Completed Geotech Report): "PIN4045100085-CAD2.pdf"
- 3) Dripline Determination: "PIN4045100085-Arborist2.pdf"
- 4) Development Application: "PIN4045100085-DevApp2.pdf"

I understand that a ROW Encroachment Agreement is necessary, but was instructed at the meeting not to complete this until after the project is completed so that the exact boundary infringement could be accurately determined and sent to King County Records Department.

Please inform me what fees are due to move the process forward.

Thank you.
