**ENVIRONMENTAL CHECKLIST**

**PURPOSE OF CHECKLIST**

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

**PRE-APPLICATON MEETING**

A pre-application meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

**Please note:** pre-application meetings are held on Tuesdays, by appointment. To schedule a meeting, submit the meeting request form and the pre-application meeting fee (see fee schedule). Meetings must be scheduled at least one week in advance. Applicants are required to upload a project narrative, a list of questions/discussion points, and preliminary plans to the Mercer Island File Transfer Site one week ahead of the scheduled meeting date.

**SUBMITTAL REQUIREMENTS**

In addition to the items listed below, the code official may require the submission of any documentation reasonably necessary for review and approval of the land use application. An applicant for a land use approval and/or development proposal shall demonstrate that the proposed development complies with the applicable regulations and decision criteria.

- A. **Completed pre-application.**
- B. **Development Application Sheet.** Application form must be fully filled out and signed.
- C. **Development Plan Set.** Please refer to the Land Use Application- Plan Set Guide in preparing plans.
- D. **Title Report.** Less than 30 days old.
- E. **SEPA checklist.**

**INSTRUCTIONS FOR APPLICANTS**

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later. Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you. The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

**USE OF CHECKLIST FOR NONPROJECT PROPOSALS**

For nonproject proposals complete this checklist and the supplemental sheet for nonproject actions (Part D). The lead agency may exclude any question for the environmental elements (Part B) which they determine do not contribute meaningfully to the analysis of the proposal. For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

**A. BACKGROUND**

- 1. Name of proposed project, if applicable:

\_\_\_\_\_

- 2. Name of applicant:

STURMAN ARCHITECTS INC.

- 3. Address and phone number of applicant and contact person:

9 - 103RD AVE, NE, SUITE 203, BELLEVUE WA, 98004

- 4. Date checklist prepared: OCTOBER 6, 2020

- 5. Agency requesting checklist:

CITY OF MERCER ISLAND

- 6. Proposed timing or schedule (including phasing, if applicable):

THE PROPOSED NEW SINGLE FAMILY CONSTRUCTION WOULD START IN FEBRUARY, 2021 AND ANY LANDSCAPE WORK AROUND THE WATERFRONT FOR MITIGATIONS WOULD OCCUR TOWARDS THE END OF CONSTRUCTION AROUND NOVEMBER OF 2021.

7. Do you have any plans for future additions, expansions, or further activity related to or connected with this proposal? If yes, explain: NO

---

---

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal:

THERE IS A CRITICAL AREA REPORT II PREPARED AND WETLAND BUFFER MITIGATION DRAWINGS PROVIDED FOR THIS PROJECT.

---

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: NO

---

---

10. List any government approvals or permits that will be needed for your proposal, if known:

CITY OF MERCER ISLAND IS REQUIRING A GEO HAZARD ALTERATION APPLICATION.

---

---

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

THIS PROJECT IS A DEMO REBUILD FOR A NEW SINGLE FAMILY RESIDENCE. THE LOT SIZE IS 36,116 SF THE HOUSE IS TWO STORIES OVER A PARTIAL LOWER LEVEL AND IS A TOTAL OF 4,961 GROSS SF WITH A GARAGE OF 1116 SF. THERE IS A COVERED DECK OF 832 SF AND A CONCRETE PATIO.

---

---

---

---

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

THE PROJECT IS LOCATED AT 4006 E. MERCER WAY, MERCER ISLAND WA 98040. THE PARCEL NUMBER IS 413190005. THE PROJECT DRAWING SET T1.0 SHOWS THE LEGAL DESCRIPTION, VICINITY AND TOPOGRAPHIC MAP. THERE IS A FULL SURVEY ATTACHED TO THE PLAN SET.

---

---

---

---

---

---

---

---

---

---

---

---

**B. ENVIRONMENTAL ELEMENTS**

**1. Earth**

a. General description of the site (check one):

Flat  Rolling  Hilly  Steep slopes  Mountainous  Other

b. What is the steepest slope on the site (approximate percent slope)? 35% slope

---

---

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

In summary, the soils observed in the borings generally consisted of fill over lake Deposit and Pre-Olympia Deposits.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

NOT TO OUR KNOWLEDGE.

e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.

THERE WILL BE APPROXIMATELY 400 CU YARDS OF CUT AND FILL FOR THE TOTAL PROJECT. THE UPHILL AREA WILL HAVE MOST OF THE EXCAVATION AND THE DOWNHILL PATIO WILL RECIEVE THE CRUSHED ROCK FILL MATERIAL DUE TO ABOVE GRADE CONSTRUCTION.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

EXCAVATIONS WILL BE AT A 1:1 CUT AS DIRECTED BY THE GEOTECHNICAL ENGINEER TO ELIMINATE POTENTIAL EROSION DURING CONSTRUCTION INCLUDING EROSION CONTROL.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

---

---

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

EROSION CONTROL MEASURES INCLUDING 1:1 CUTS, PLASTIC COVERING ANY OPEN CUTS, SILT FENCING WITH HAY BALES IF REQUIRED.

**2. Air**

---

a. What types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, and industrial wood smoke) during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.  
THE SINGLE FAMILY HOME WOULD NOT PRODUCE ANY UNUSUAL EMISSIONS.

---

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. NON KNOWN.

---

c. Proposed measures to reduce or control emissions or other impacts to air, if any:  
THERE ARE TWO GAS FUELED FIREPLACES AND ONE WOOD BURNING FIREPLACE. THE WOOD BURNING FIREPLACE WILL ONLY BE USED WHEN NO BURN BAN IS IN EFFECT.

---

### 3. Water

a. Surface:

i. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.  
THE SITE SITES ON THE WATERFRONT OF LAKE WASHINGTON.

---

ii. Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.  
THE PROJECT BUILDING FOOTPRINT IS WITH-IN 200 FEET OF THE WATERFRONT. THERE WILL BE NO WORK OVER THE WATER. SEE ATTACHED SITEPLAN.

---

iii. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.  
THERE WILL BE NO FILL OR DRDGEING OF MATERIAL PLACED OR REMOVED IN THE WETLAND AREA DUE TO UNDERGROUND TRENCHLESS TECHNOLOGOLY CONSTRUCTION.

---

iv. Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known. NO.

---

v. Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.  
NO.

---

- vi. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

---

NO

---

b. Ground

- i. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well? Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known. NO.

- ii. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, [containing the following chemicals...]; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve. NONE.

c. Water runoff (including stormwater):

- i. Describe the source of runoff (including stormwater) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

THERE WILL BE A NEW STORM DRAINAGE PIPE COLLECTION FOOTING DRAINS,  
DOWNSPOUTS AND SERFACE WATER FROM HOUSE PROJECT. THE NEW LINE RUNS  
DOWNHILL AND SURFACE OUTFALLS INTO LAKE WASHINGTON. SEE CIVIL DRAWINGS.

- ii. Could waste materials enter ground or surface waters? If so, generally describe. NO.

- d. Proposed measures to reduce or control surface, ground, runoff water, and drainage pattern impacts, if any:

THE PROJECT BEING ON LAKE WASHINGTON IS APPROVED TO DIRECTLY DISCHARGE TO THE  
LAKE WITH OUT ANY TREATMENT OR DETENSION.

---

#### 4. Plants

- a. Check types of vegetation found on the site
- X Deciduous tree: Alder, Maple, Aspen, other
  - X Evergreen tree: Fir, Cedar, Pine, other
  - X Shrubs
  - X Grass

- Pasture
- Crop or grain
- Wet soil plants: Cattail, buttercup, bulrush, skunk cabbage, other
- Water plants: Water lily, eelgrass, milfoil, other
- Other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

---

TWO TREES WILL BE REMOVED. ONE DECIDUOUS AND ONE CEDAR.

---

c. List threatened or endangered species known to be on or near the site.

---

NON KNOWN.

---

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

---

NEW NATIVE PLANTS WILL BE USED AT THE WATERFRONT TO COMPLY THE CITY OF  
MERCER ISLANDS WATERFRONT PLANTING STANDARDS.

---

e. List all noxious weeds and invasive species known to be on or near the site.

---

The only noxious weed on-site is yellow-flag iris (Iris pseudacorus).

---

## 5. Animals

a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include:

Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other:

Fish: bass, salmon, trout, herring, shellfish, other:

GENERAL SONGBIRDS, DEER , BASS AND TROUT IN LAKE WASHINGTON.

---

---

b. List any threatened or endangered species known to be on or near the site.

---

NONE KNOWN.

---

c. Is the site part of a migration route? If so, explain. NO.

---

---

d. Proposed measure to preserve or enhance wildlife, if any: SILT FENCING AND EROSION CONTROL ARE MEASURES TO REDUCE IMPACTS TO WILDLIFE.

---

---

- 
- 
- e. List any invasive animal species known to be on or near the site. NONE KNOWN.
- 
- 
- 

---

**6. Energy and natural resources**

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

THE PROJECT WILL USE ELECTRICAL FOR CONSTRUCTION AND APPLIANCES, NATURAL GAS FOR APPLIANCES AND FURNACES FOR HEATING.

---

---

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. NO.
- 
- 
- 

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any: THERMAL WINDOW, STONG INSULATION AT WALLS AND ROOF FOR THERMAL INTEGRITY.
- 
- 

---

**7. Environmental health**

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe. NO.
- 
- 
- 

- i. Describe any known or possible contamination at the site from present or past uses. NONE KNOWN.
- 
- 
- 

- ii. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity. NONE KNOWN.
- 
- 
- 

- iii. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. NONE.
- 
- 
-

---

---

iv. Describe special emergency services that might be required. NONE.

---

---

v. Proposed measures to reduce or control environmental health hazards, if any:  
USE SAFE WATER BORN PRODUCTS AND LOW VOC PRODUCTS ON PROJECT  
CONSTRUCTION.

---

---

b. Noise

i. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

ANY CONSTRUCTION ACTIVIY NOISE WILL BE TEMPORARY AND HAPPEN ONLY IN THE CITY OF MERCER ISLAND STANDARD TIMES FOR CONSTRUCTION ACTIVITY.

---

---

ii. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. NOISE HOURS WOULD BE FROM 8AM TO 5PM. SHORT TERM TRAFFIC WILL BE MITIGATED WITH PARKING PLAN BY CONTRACTOR.

---

---

iii. Proposed measures to reduce or control noise impacts, if any:  
LOUD EQUIPMENT ONLY TO BE USED FROM 8AM TO 5PM.

---

---

**8. Land and shoreline use**

a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

THIS PROPERTY ALL ADJACENT PROPERTIES ARE SINGLE FAMILY RESIDENTIAL. NO IMPACTS.

---

---

b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?

NO.

---

---

c. Describe any structures on the site.

THE SITE HAS AN EXISTING TWO STORY RESIDENTIAL STRUCTURE THAT WILL BE TORN DOWN.

---

---

d. Will any structures be demolished? If so, what? HOUSE STRUCTURE TORN DOWN.

---

---

---

e. What is the current zoning classification of the site?

SINGLE FAMILY RESIDENTIAL R-9.6

---

---

f. What is the current comprehensive plan designation of the site?

SINGLE FAMILY RESIDENTIAL.

---

---

g. If applicable, what is the current shoreline master program designation of the site?

NOT KNOWN.

---

---

h. Has any part of the site been classified as an “environmentally sensitive” area? If so, specify.

THERE IS A SMALL WETLAND ARE TOWARD THE WATERFRONT AREA.

---

---

i. Approximately how many people would reside or work in the completed project?

2-4 PEOPLE.

---

---

j. Approximately how many people would the completed project displace? NONE.

---

---

k. Proposed measures to avoid or reduce displacement impacts, if any: NONE.

---

---

l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: THE PROJECT MEETS ALL ZONING CODES.

---

---

---

---

---

**9. Housing**

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing. ONE UNIT, HIGH INCOME.

---

---

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing. ONE HIGH UNIT REDUCED AND ONE ADDED.

---

---

- c. Proposed measures to reduce or control housing impacts, if any: NONE REQUIRED.

---

---

---

**10. Aesthetics**

- a. What is the tallest height of any proposed structure(s), not including antennas? What is the principal exterior material(s) proposed?  
THE HIGHEST ROOF OF THE STUCTURE IS 28 FEET ABOVE THE AVERAGE BASE ELEVATION.  
THE ROOF ELEVATION IS AT 68.89 FEET. THE EXTERIOR MATERIAL IS WOOD SIDING.

---

- b. What views in the immediate vicinity would be altered or obstructed?  
NO VIEWS WILL BE OBSTRUCTED. THE NEW HOUSE IS IN A SIMILAR LOCATION AS THE OLD HOUSE WAS.

---

- c. Proposed measures to reduce or control aesthetics impacts, if any:  
ROOF LINES AND ORIENTATION IS SIMILAR TO THE OLD HOUSE.

---

---

**11. Light and glare**

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?  
NO EXCESIVE LIGHT OR GLARE WOULD BE PRODUCED WITH THIS RESIDENCE.

---

- b. Could light or glare from the finished project be a safety hazard or interfere with views? NO.

---

---

- c. What existing off-site sources of light or glare may affect your proposal? NONE.

---

---

- d. Proposed measures to reduce or control light and glare impacts, if any: DARK COLOR OF HOUSE

---

---

**12. Recreation**

- a. What designated and informal recreational opportunities are in the immediate vicinity?  
MOSTLY LAKE WASHINGTON BOATING AND SWIMMING AND PARKS.

---

---

---

---

b. Would the proposed project displace any existing recreational uses? If so, describe. NO.

---

---

---

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: NONE.

---

---

---

---

**13. Historic and cultural preservation**

a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe. NONE.

---

---

---

b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources. NONE.

---

---

---

c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc. NONE REQUIRED.

---

---

---

d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required. NONE.

---

---

---

---

**14. Transportation**

a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.  
THE SITE IS ACCESS FROM AN UNIMPROVED CITY STREET 40TH AVE. THE MAIN ROAD THAT CONNECTS 40TH AVE. IS EAST MERCER WAY.

---

---

---

b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?  
THERE IS TRANSIT ON EAST MERCER WAY ABOUT 400 FEET AWAY FOR THE SITE.

---

---

---

c. How many additional parking spaces would the completed project or nonproject proposal have? How many would the project or proposal eliminate? THE EXISTING HOUSE HAS 2 PARKING SPACES AND THE NEW HOUSE WILL HAVE 4 PARKING SPACES.

---

---

---

d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private). NONE KNOWN.

---

---

---

e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. NO.

---

---

---

f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates? NO COMMERCIAL TRIPS GENERATED.

---

---

---

g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. NO.

---

---

---

h. Proposed measures to reduce or control transportation impacts, if any: NONE REQUIRED.

---

---

---

**15. Public services**

a. Would the project result in an increased need for public services (for example; fire protection, police protection, health care, schools, other)? If so, generally describe.  
THERE WOULD BE NO INCREASED NEED CREATED BY THIS PROJECT COMPARED TO THE HOUSE THAT IS BEING TORN DOWN.

---

---

---

b. Proposed measures to reduce or control direct impacts on public services, if any. NONE.

---

---

---

**16. Utilities**

a. Check utilities currently available at the site:

Electricity X	Natural Gas X	Water X	Refuse Service X
Telephone X	Sanitary sewer X	Septic system	Other <input type="checkbox"/>

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

THERE WILL BE NEW GAS, POWER AND CABLE SERVICES BROUGHT TO THE SITE FROM THE UPPER EAST MERCER WAY ROAD. NEW STORM LINE DIRECTED T O LAKE WASHINGTON AND NEW SEWER LINE WILL BE REUSED CONNECTED TO THE CITY SYSTEM. IN THE ADJACENT 40TH AVE ROAD AND DRIVEWAY THERE ARE HIGH PRESSURE GAS LINES THAT SERVE THE MERCER ISLAND IN GENERAL COMMING OUT OF THE LAKE UNDER THE PUBLIC ROAD.

**C. SIGNATURE**

I certify (or declare) under penalty of perjury under the laws of the State of Washington that the answers to the attached SEPA Checklist are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: \_\_\_\_\_

Date Submitted: \_\_\_\_\_

**SEPA RULES**

**SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS**

(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; productions, storage, or release of toxic or hazardous substances; or production of noise?

---

---

---

---

Proposed measures to avoid or reduce increases are:

---

---

---

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

---

---

---

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

---

---

---

3. How would the proposal be likely to deplete energy or natural resources?

---

---

---

Proposed measures to protect or conserve energy and natural resources are:

---

---

---

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

---

---

---

Proposed measures to protect such resources or to avoid or reduce impacts are:

---

---

---

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

---

---

---

Proposed measures to avoid or reduce shoreline and land use impacts are:

---

---

---

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

---

---

Proposed measures to reduce or respond to such demand(s) are:

---

---

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

---

---
