Subject: **Review of Plans**  
Proposed New Residence  
5300 Butterworth Road  
Mercer Island, Washington

Reference: *Geotechnical Engineering Study and Critical Area Study*, same site and project;  
Geotech Consultants, Inc.; March 7, 2023.

Dear Mr. and Mrs. Asdourian:

As requested, we have reviewed the geotechnical aspects of the plans for your planned new residence. For our review, we were provided with the structural drawings prepared by O.G. Engineering, dated 11-01-23.

Based on our review, the provided plans conform to our recommendations.

In order to satisfy City of Mercer Island requirements, we make the following "Statement of Risk":

Construction practices are proposed for the alteration that would render the development as safe as if it were not located in a geologically hazardous area and do not adversely impact adjacent properties.

Please contact us if you have any questions regarding this letter, or if we can be of further assistance.

Respectfully submitted,

GEOTECH CONSULTANTS, INC.

Marc R. McGinnis, P.E.  
Principal
