Herzl Ner-Tamid K-8 Project
3700 E Mercer Way
Project Narrative, Conditional Use Permit

Project Narrative

The existing permitted uses on the residentially zoned lots at 3700 E Mercer Way site include a synagogue building (use approved 1970); caretaker's facility and outdoor play areas (1979); multipurpose building (1979); non-commercial recreational area used between 7 am and 10 pm (1979); and associated parking.

The proposed amendment to the existing conditional use permit(s) would permit a private school and rental offices on the adjoining property to share the existing parking lots; would permit the school to use the existing outdoor play areas and the non-commercial recreational area; and would permit certain non-occupied portions of the school building to project into the residential zone. (overhead canopy, trash enclosure)

Physical changes to the existing property related to the Conditional Use Permit are limited to pedestrian pathways, an overhead canopy, utilities, fencing, landscaping, and a trash enclosure. Existing development is noncompliant with current impervious surface limits but legally conforming per 19.01.050.A.7. Added impervious surface will be offset by removed impervious surface so that we retain existing lot coverage and impervious surface areas.

The project on the adjoining B-zoned lot is a 3-story mixed-use building housing a K-8 private school on the lower levels and rental office space on the upper level and a half. Concurrently, a preschool will be developed on the R-9.6 parcels, within the existing synagogue building, which is permitted outright.

The preschool uses will be considered as part of the transportation/traffic study.

Boundaries of the area above the line of ordinary high water shall be reasonably screened or fenced, or both, from abutting property and streets and appropriately landscaped. The Design Commission required that the existing vegetation along the south property line be augmented with English Laurel hedge instead of the ornamental pines as previously proposed. Additionally, there is a six foot high fence along the entire southern boundary of the property. STAFF RECOMMENDATION The request does meet the conditions for a Conditional Use Permit and noncommercial recreation area. Much of this compliance is due to the review by the Design Commission in a preliminary phase, Staff will recommend that the Non-Commercial Recreational Tract for the Herzl-Ner-Tamid Congregation be approved as submitted on June 20, 1979,</p>

subject to the following conditions:

1. That activity in the recreational tract shall be limited to daylight hours between 7:00 A.M. and 10:00 P.M,
2. That the dilapidated existing dock be removed.
3. That a bond be secured in the amount to install all the proposed improvements in addition to possible reconstruction of the existing fence and removal of the existing dilapidated dock.
