MERCER ISLAND COUNTRY CLUB
8700 SE 71ST ST
MERCER ISLAND, WA 98040

Dear Owner:

In checking our records, it appears that your building permit number 0307-162 for 8700 SE 71ST ST for REROOF - TEAR OFF COMP, REPAIR SHEATING, REROOF W/ COMP. has not had a recent inspection. The Building Code states that if work ceases for a period of 180 consecutive days, the permit expires. Our records show that your permit will expire on 1/21/2004.

- If the project is still active, please call for an inspection before the expiration date. You may request an inspection by calling (206)236-3587.
- If you will not be ready for an inspection by the expiration date, it will be necessary for you to provide proof that the work has not been abandoned (invoices, receipts for supplies, etc.). This proof must show that substantial work is ongoing and must be submitted before the expiration date to keep this permit from expiring.
- You may receive a one-time 180-day extension of this permit by submitting a request in writing to the Building Official *before this permit expires*. The letter must indicate good and satisfactory reason for the extension and can only be granted if you contact us before the expiration date.

Should you have any questions, please contact Teri Reagan at teri.reagan@ci.mercer-island.wa.us or 206-236-3540.

Sincerely,

Teri Reagan for
Crystal Kolke, Building Official
