Subject: Preserving Park Land
Date: Sunday, January 28, 2024 7:56:02 PM

As a long-time resident of Mercer Island, I urge the Planning Commission, the Parks Department, and the City Council to:

1. Preserve all current park land as it.
2. Avoid any new construction in MI partks
3. Keep parks as big and wild as possible
4. Not cover any park land with impervious surfaces
5. Not use park land for parking of vehicles
6. Not re-zone any park land without a community vote.

Our lovely community depends on green spaces, wild spaces and open spaces. The climate benefits from these parks, as well as the community.
