Subject: Parks need to expand not be "developed"
Date: Tuesday, January 30, 2024 8:48:45 AM

Parks bring pleasure to so many residents of Mercer Island. They need time be enhanced not developed for parking lots r buildings.

We have just voted and now a council member supported by other council members wants to destroy MI to make money by building.

Solve monetary problems without destroying parks, last bastion for pleasure for all.

Thank you for protesting thus measure.
