RE: Wet Season Construction Approval

Dear Gareth,

We are requesting a wet season construction waiver for the Harris Residence, building permit #2111-008, located at 1640 72nd Ave SE. The work planned for this wet season is renovation of the patio areas and updates to landscaping as shown in the permit set drawings. Work on expansion of conditioned space would be excluded under this approval.

Sincerely,

Tom Brown
Senior Project Manager
