My wife and two daughters live at 3807 W. Mercer Way. For the past year or more, we have endured a constant flow of construction vehicles flowing down our driveway and clogging the parking area at the top of the driveway where we access our mailbox and where my daughter (and other kids) take the bus to school. I have concerns about the chaos created by the construction projects and the dangers the trucks, etc., present to my two kids. My oldest daughter catches the school bus in the a.m. at the top of the driveway and I always worry about the lack of visibility the vehicles parked at the top of the driveway create. And, of course, I have to walk and/or drive through the potholes and muck caused by the big trucks that use our driveway. I assumed it was a given that the construction companies were going to repair the damage at the end of the projects.
