Subject: SEPA

I'd have written something earlier regarding the impact of MICA in Mercedale, however I've been sufficiently beaten over the head to know it won't matter. The council will do what it wants to do regardless of the facts; desires of the majority of resident (at least who are informed and didn't simply believe Graus, Bassett's, et al. lies); the cost, etc. BTW I'd be happy to review with you the facts underlying my assertions.

MICA in Mercedale will be a disaster. It will: further strain the hillside; create more traffic and pollution in an already very congested area; bring noise and light pollution to an increasingly busy area; further strain overly strained parking resources; and cause a bike lane passing through TC to be eliminated.

Perhaps the great success the council has had guiding us through changing times should be noted. the council is incompetent and residents have lost—thanks guys. BTW good job turning a balanced budget into a deficit ahead of schedule, all the while cutting back on essential services.

Teresa (Terry) Magaram
