Subject: File Nos.: SEP23-006 - Watercourse restoration

Mr. Harriman,

Our home is located at 4328 West Mercer Way, Mercer Island, almost adjacent to the subject project. We have a few questions regarding this project:

- What or who prompted this restoration and stabilization project?
- What, if any, anticipated impact will this project have on our property during and after construction/restoration?
- Is there any restoration work or any other activities currently scheduled for this project after March 8, 2023, the last date noted on the public notice we received in February.
- We would like to receive notice and request a copy of any decision(s) made by your department regarding this project.

Thank you,

Elaine Berg & Leo Longo
