Hello,

If you were to submit revisions to your permit now, I would be able to review the boat lift as a part of the current review cycle. To make sure that the permit is not delayed, please be sure that the boat lift is consistent with the shoreline master program and any easements and agreements between the property owners.

Thanks,

**Andrew Leon**

Hi Andrew,

Richard Fallquist is interested in adding a boat lift to this project. Would it delay your approval if we revised the project to include one at this time?

Thanks,

Evan

Hello,

Please see the following for updates about SHL21-030 and SHL18-017. Please note that the City of Mercer Island's planning staffing is about 50% its normal level. As a result, our project reviews are several weeks behind schedule.

- SHL21-030 and its associated SEPA review (SEP21-023) were reassigned to Liz Thompson this week. Please follow up with Liz on when she expects to review the project.
- The target review date for SHL18-017 is June 17. I currently have over 40 projects ahead of SHL18-017 in my work queue, so it is unlikely that I will be able to review it by June 17. The review will likely occur sometime in July.

Thanks,

**Andrew Leon**

Hi Andrew,

Please provide an update on this permit as well.

Thanks,  
Evan
