ENVIRONMENTAL CHECKLIST

PURPOSE OF CHECKLIST

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

PRE-APPLICATON MEETING

A pre-application meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

Please note: pre-application meetings are held on Tuesdays, by appointment. To schedule a meeting, submit the meeting request form and the pre-application meeting fee (see fee schedule). Meetings must be scheduled at least one week in advance. Applicants are required to upload a project narrative, a list of questions/discussion points, and preliminary plans to the Mercer Island File Transfer Site one week ahead of the scheduled meeting date.

SUBMITTAL REQUREMENTS

In addition to the items listed below, the code official may require the submission of any documentation reasonably necessary for review and approval of the land use application. An applicant for a land use approval and/or development proposal shall demonstrate that the proposed development complies with the applicable regulations and decision criteria.

- A. Completed pre-application.
- B. **Development Application Sheet.** Application form must be fully filled out and signed.
- C. **Development Plan Set.** Please refer to the Land Use Application- Plan Set Guide in preparing plans.
- D. **Title Report.** Less than 30 days old.
- E. SEPA checklist.

INSTRUCTIONS FOR APPLICANTS

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later. Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you. The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

USE OF CHECKLIST FOR NONPROJECT PROPOSALS

For nonproject proposals complete this checklist and the supplemental sheet for nonproject actions (Part D). The lead agency may exclude any question for the environmental elements (Part B) which they determine do not contribute meaningfully to the analysis of the proposal. For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

Α.	BACKGROUND		
1.	Name of proposed project, if app	licable:	
	Fallquist Community Dock Exte	ension	
2.	Name of applicant:		
	Richard Fallquist		
	·		
3.	Address and phone number of ap	oplicant and contact person:	
	5061 84th Ave SE 206-817-1	·	206-706-3937
	Mercer Island, WA 98040	Seattle, WA 98103	
4.	Date checklist prepared:		
	3/30/2020		
5.	Agency requesting checklist:		
٦.	City of Mercer Island		
	City of Mercer Island		
c	Dranged timing or schodule (inc	luding phasing if applicable)	
6.	Proposed timing or schedule (inc	luding phasing, if applicable):	
	Summer 2020		

7.	Do you have any plans for future additions, expansions, or further activity related to or connected with this proposal? If yes, explain: No
8.	List any environmental information you know about that has been prepared, or will be prepared,
	directly related to this proposal: No Net Loss Report for Mercer Island
9.	Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: None Known
0.	List any government approvals or permits that will be needed for your proposal, if known: Shoreline Substantial Development, Building Permit, HPA from WDFW, and LOP from Army Corps.
1.	Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.) Extend the existing pier 31'11" and add a "T" to the end of the pier.
.2.	Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. 5067 84th Ave SE Section: NE 1/4 24
	Mercer Island, WA 98040 Township: 24 N
	Range: 4 E

_	
_	
_	
	INVIRONMENTAL ELEMENTS
. E	a. General description of the site (check one):
F	· · · · · · · · · · · · · · · · · · ·
	b. What is the steepest slope on the site (approximate percent slope)? Approximately 20%
_	
	c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? you know the classification of agricultural soils, specify them and note any agricultural land clong-term commercial significance and whether the proposal results in removing any of the soils.
	Silt, sand, and gravel.
_	
	d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describ lone know.
	e. Describe the purpose, type, total area, and approximate quantities and total affected area of a filling, excavation, and grading proposed. Indicate source of fill. Not applicable.
_	f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.
!	No
_	g. About what percent of the site will be covered with impervious surfaces after projeconstruction (for example, asphalt or buildings)? No change.
	h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: None
_	
_	Nie.

	and	at types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial wood smoke) during construction, operation, and maintenance when the project ampleted? If any, generally describe and give approximate quantities if known.
		s of emissions from construction.
		there any off-site sources of emissions or odor that may affect your proposal? If so, generally cribe.
	None kno	own.
	c. Pro _l None	posed measures to reduce or control emissions or other impacts to air, if any:
3.	Water	
		ace:
	i.	Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.
	Yes, L	ake Washingon
	ii.	Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.
	Yes, w	ork will occur in Lake Washington.
	iii.	Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.
	None	
	iv.	Will the proposal require surface water withdrawals or diversions? Give general
		description, purpose, and approximate quantities if known.
	No	
	v. No	Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

No)	describe the type of waste and anticipated volume of discharge.
b.	Grou i.	
No	ii. one	Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, [containing the following chemicals]; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animal or humans the system(s) are expected to serve.
c.	i.	er runoff (including stormwater): Describe the source of runoff (including stormwater) and method of collection an disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. Inge to water runoff
Co	ii. onstru	Could waste materials enter ground or surface waters? If so, generally describe.
d. A fl	impa	posed measures to reduce or control surface, ground, runoff water, and drainage patter acts, if any: g containment boom will be used to contain any debris that enters the water.
Plan	ts	
a.	Chec	ck types of vegetation found on the site

vi. Does the proposal involve any discharges of waste materials to surface waters? If so,

Shrubs

Grass

X

X

X

Deciduous tree: Alder, Maple, Aspen, other

Evergreen tree: Fir, Cedar, Pine, other

	☐ Pasture
	☐ Crop or grain
	☐ Wet soil plants: Cattail, buttercup, bulrush, skunk cabbage, other
	☑ Water plants: Water lily, eelgrass, milfoil, other
	☐ Other types of vegetation
	b. What kind and amount of vegetation will be removed or altered?
	None
	c. List threatened or endangered species known to be on or near the site.
	None known.
	d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:
	Native shoreline vegetation will be planting per the planting plan.
	Tames of the control
	e. List all noxious weeds and invasive species known to be on or near the site.
	Eurasion milfoil.
5.	Animals
5.	Animals a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include:
5.	a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include:
5.	a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include:Birds: hawk, heron, eagle, songbirds, other:
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other:
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other:
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other:
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other:
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site. Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site. Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. c. Is the site part of a migration route? If so, explain.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site. Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site. Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. c. Is the site part of a migration route? If so, explain.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site. Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. c. Is the site part of a migration route? If so, explain.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site. Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. c. Is the site part of a migration route? If so, explain. Yes, salmon migrate through Lake Washington.
5.	 a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include: Birds: hawk, heron, eagle, songbirds, other: Mammals: deer, bear, elk, beaver, other: Fish: bass, salmon, trout, herring, shellfish, other: Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. b. List any threatened or endangered species known to be on or near the site. Bald eagle, blue heron, sockeye salmon, chinook salmon, coho salmon, and steelhead. c. Is the site part of a migration route? If so, explain.

List any invasive animal species known to be on or near the site. None known.
rgy and natural resources What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet to completed project's energy needs? Describe whether it will be used for heating, manufacturic etc. One
Would your project affect the potential use of solar energy by adjacent properties? If generally describe.
0
What kinds of energy conservation features are included in the plans of this proposal? List ot proposed measures to reduce or control energy impacts, if any: lone
ironmental health
Are there any environmental health hazards, including exposure to toxic chemicals, risk of tand explosion, spill, or hazardous waste that could occur as a result of this proposal? If describe.
i. Describe any known or possible contamination at the site from present or past uses. one known
 ii. Describe existing hazardous chemicals/conditions that might affect project developm and design. This includes underground hazardous liquid and gas transmission pipeli located within the project area and in the vicinity. one known
iii. Describe any toxic or hazardous chemicals that might be stored, used, or produced dur the project's development or construction, or at any time during the operating life of

	iv. Describe special emergency services that might be required.None anticipated
	v. Proposed measures to reduce or control environmental health hazards, if any: None
	 b. Noise i. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)? None
	 ii. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. Elevated levels of noise from construction.
	iii. Proposed measures to reduce or control noise impacts, if any: Construction will only take place during allowed work hours.
8.	Land and shoreline use
	 a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe. Single family residential.
	 b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use? No
	c. Describe any structures on the site. Single family house.
	d. Will any structures be demolished? If so, what?

	_ No
	e. What is the current zoning classification of the site? R - 15
	f. What is the current comprehensive plan designation of the site? R - 15
	g. If applicable, what is the current shoreline master program designation of the site? Urban Residential
	h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify. Yes, Lake Washington
	Approximately how many people would reside or work in the completed project? Not applicable
	j. Approximately how many people would the completed project displace? None
	k. Proposed measures to avoid or reduce displacement impacts, if any: None
	 Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:
	None
).	Housing
	 a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.
	Not applicable

	b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
	None
	c. Proposed measures to reduce or control housing impacts, if any: None
10.	Aesthetics
	 a. What is the tallest height of any proposed structure(s), not including antennas? What is the principal exterior material(s) proposed? Approximately 2' above ordinary high water.
	Approximately 2 above ordinary high water.
	 b. What views in the immediate vicinity would be altered or obstructed? None
	c. Proposed measures to reduce or control aesthetics impacts, if any: None
11.	Light and glare
11.	Light and glare a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None
11.	a. What type of light or glare will the proposal produce? What time of day would it mainly occur?
11.	 a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views?
11.	a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None
11.	a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views? No c. What existing off-site sources of light or glare may affect your proposal?
11.	 a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views? No
11.	a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views? No c. What existing off-site sources of light or glare may affect your proposal?
11.	a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views? No c. What existing off-site sources of light or glare may affect your proposal?
11.	 a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views? No c. What existing off-site sources of light or glare may affect your proposal? None d. Proposed measures to reduce or control light and glare impacts, if any:
	a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views? No c. What existing off-site sources of light or glare may affect your proposal? None d. Proposed measures to reduce or control light and glare impacts, if any: None
12.	 a. What type of light or glare will the proposal produce? What time of day would it mainly occur? None b. Could light or glare from the finished project be a safety hazard or interfere with views? No c. What existing off-site sources of light or glare may affect your proposal? None d. Proposed measures to reduce or control light and glare impacts, if any:

	b. Would the proposed project displace any existing recreational uses? If so, describe.
	No
	Bornell and the self-self-self-self-self-self-self-self-
	c. Proposed measures to reduce or control impacts on recreation, including recreation
	opportunities to be provided by the project or applicant, if any:
	None
13.	Historic and cultural preservation
	a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old
	listed in or eligible for listing in national, state, or local preservation registers? If so, specifically
	describe.
	No
	b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This
	may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas
	of cultural importance on or near the site? Please list any professional studies conducted at the
	site to identify such resources.
	None known
	THORE MICHIE
	c. Describe the methods used to assess the potential impacts to cultural and historic resources on
	or near the project site. Examples include consultation with tribes and the department of
	archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.
	None
	d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to
	resources. Please include plans for the above and any permits that may be required.
	None
14.	Transportation
	a. Identify public streets and highways serving the site or affected geographic area and describe
	proposed access to the existing street system. Show on site plans, if any.
	SE 51st St.

	 Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop? Yes, approximately 1/4 mile.
	c. How many additional parking spaces would the completed project or nonproject proposal have? How many would the project or proposal eliminate? No change
(Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private). No
	e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. No
_	f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates? No Change
	g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. No
	n. Proposed measures to reduce or control transportation impacts, if any: None
15. Pu	ublic services
	 Would the project result in an increased need for public services (for example; fire protection, police protection, health care, schools, other)? If so, generally describe. No
_	
	 Proposed measures to reduce or control direct impacts on public services, if any.

	None					
16.	Utilities					
		ently available at the site	2:			
	Electricity 🗵 Telephone 🗵	Natural Gas 区 Sanitary sewer 区	Water ⊠ Septic system □	Refuse Service ☑ Other □		
				oviding the service, and the y which might be needed.

SEPA RULES						
SUPI	SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS					

(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; productions, storage, or release of toxic or hazardous substances; or production of noise?

	Proposed measures to avoid or reduce increases are:
2.	How would the proposal be likely to affect plants, animals, fish, or marine life?
	Proposed measures to protect or conserve plants, animals, fish, or marine life are:
3.	How would the proposal be likely to deplete energy or natural resources?
	Proposed measures to protect or conserve energy and natural resources are:
4.	How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?
	Proposed measures to protect such resources or to avoid or reduce impacts are:
5.	How would the proposal be likely to affect land and shoreline use, including whether it would allow or
	encourage land or shoreline uses incompatible with existing plans?
	Proposed measures to avoid or reduce shoreline and land use impacts are:

о.	utilities?
	Proposed measures to reduce or respond to such demand(s) are:
7.	Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
