ENVIRONMENTAL CHECKLIST

PURPOSE OF CHECKLIST

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

PRE-APPLICATON MEETING

A pre-application meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

Please note: pre-application meetings are held on Tuesdays, by appointment. To schedule a meeting, submit the meeting request form and the pre-application meeting fee (see fee schedule). Meetings must be scheduled at least one week in advance. Applicants are required to upload a project narrative, a list of questions/discussion points, and preliminary plans to the Mercer Island File Transfer Site one week ahead of the scheduled meeting date.

SUBMITTAL REQUREMENTS

In addition to the items listed below, the code official may require the submission of any documentation reasonably necessary for review and approval of the land use application. An applicant for a land use approval and/or development proposal shall demonstrate that the proposed development complies with the applicable regulations and decision criteria.

- A. Completed pre-application.
- B. **Development Application Sheet.** Application form must be fully filled out and signed.
- C. **Development Plan Set.** Please refer to the Land Use Application- Plan Set Guide in preparing plans.
- D. **Title Report.** Less than 30 days old.
- E. SEPA checklist.

INSTRUCTIONS FOR APPLICANTS

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later. Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you. The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

USE OF CHECKLIST FOR NONPROJECT PROPOSALS

For nonproject proposals complete this checklist and the supplemental sheet for nonproject actions (Part D). The lead agency may exclude any question for the environmental elements (Part B) which they determine do not contribute meaningfully to the analysis of the proposal. For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A.	BACKGROUND
1.	Name of proposed project, if applicable:
	Saltwater LLC
2.	Name of applicant:
	Zoe Rohaly
3.	Address and phone number of applicant and contact person:
	1080 W Ewing St. Bldg B Seattle, WA 98119
	(206) 236-1700
4.	Date checklist prepared:
	9-15-2021
5.	Agency requesting checklist:
-	City of Mercer Island
	- ,
6.	Proposed timing or schedule (including phasing, if applicable):
	Upon Receipt of all applicable permits and open work window
	1

7.	Do you have any plans for future additions, expansions, or further activity related to or connected with this proposal? If yes, explain: None
8.	List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal: No Net Loss of Ecological Function Report
9.	Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: Unknown
10.	List any government approvals or permits that will be needed for your proposal, if known: City of Mercer Island Shoreline Substantial Development permit w/SEPA Review, City of Mercer
	Island Building Permit, US Army CORPS of Engineering Federal permits, and the WA. State dep. of
	Fish and Wildlife Hydraulic Project Approval.
11.	Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.) We propose to repair (6) piles, remove (1) mooring pile, remove a PWC lift, install a boat lift, and
	install a dual jet ski lift.
12.	Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. Pin: 548270-0185

FNIVII	RONMENTAL ELEMENTS
Earth	
a.	General description of the site (check one):
Flat	☐ Rolling ☐ Hilly ☑ Steep slopes ☐ Mountainous ☐ Other ☐
b.	What is the steepest slope on the site (approximate percent slope)?
34 %	what is the steepest slope on the site (approximate percent slope):
	What general types of soils are found on the site (for example, clay, sand, gravel, peat, much you know the classification of agricultural soils, specify them and note any agricultural lar long-term commercial significance and whether the proposal results in removing any of t soils.
Sand	and gravel
d. No	Are there surface indications or history of unstable soils in the immediate vicinity? If so, desc
	Describe the purpose, type, total area, and approximate quantities and total affected area of filling, excavation, and grading proposed. Indicate source of fill.
None	
f. No	Could erosion occur as a result of clearing, construction, or use? If so, generally describe.
	About what percent of the site will be covered with impervious surfaces after proconstruction (for example, asphalt or buildings)?
None	
h. N/A	Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

3.4.4	
and is c	at types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, I industrial wood smoke) during construction, operation, and maintenance when the project ompleted? If any, generally describe and give approximate quantities if known. moke from construction equipment
	there any off-site sources of emissions or odor that may affect your proposal? If so, generally cribe.
No	
	posed measures to reduce or control emissions or other impacts to air, if any: oment only as needed
Water	<u>, </u>
a. Sur i.	face: Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.
The site is	adjacent to Lake Washington
ii.	Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.
We propo	se to repair (6) piles, remove (1) mooring pile, remove a PWC lift, install a boat lift, and install
a dual jet	ski lift.
iii. None	Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.
iv. No	Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.
v. No	Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

No	vi. Does the proposal involve any discharges of waste materials to surface wate describe the type of waste and anticipated volume of discharge.	
b.	i. Will groundwater be withdrawn from a well for drinking water or other purposive a general description of the well, proposed uses and approximate withdrawn from the well? Will water be discharged to groundwater? Given description, purpose, and approximate quantities if known.	quanti
None	Describe waste material that will be discharged into the ground from septic tan sources, if any (for example: Domestic sewage; industrial, [containing the chemicals]; agricultural; etc.). Describe the general size of the system, the such systems, the number of houses to be served (if applicable), or the number or humans the system(s) are expected to serve.	follow numbe
C.	Vater runoff (including stormwater): i. Describe the source of runoff (including stormwater) and method of colled disposal, if any (include quantities, if known). Where will this water flow? Will	
N/A	flow into other waters? If so, describe.	
N/A	ii. Could waste materials enter ground or surface waters? If so, generally describe	· ·
d.	Proposed measures to reduce or control surface, ground, runoff water, and draina mpacts, if any:	ge patt
Plan		
a.	Check types of vegetation found on the site Deciduous tree: Alder, Maple, Aspen, other Evergreen tree: Fir, Cedar, Pine, other Shrubs	

	□ Pasture
	☐ Crop or grain
	☐ Wet soil plants: Cattail, buttercup, bulrush, skunk cabbage, other
	☐ Water plants: Water lily, eelgrass, milfoil, other
	☐ Other types of vegetation
b.	What kind and amount of vegetation will be removed or altered?
N/A	
c.	List threatened or endangered species known to be on or near the site.
No kr	nown threatened or endangered plant species are on or near the site
-	
d.	Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetal
۵.	on the site, if any:
Pleas	se see associated native planting and vegetation plan
e.	List all noxious weeds and invasive species known to be on or near the site.
None	present along the shoreline adjacent to the work site
Anin	
a.	State any birds and animals which have been observed on or near the site or are known to be or near the site. Examples include:
Birds	
	s: hawk, heron, eagle, songbirds, other:
	s: hawk, heron, eagle, songbirds, other: nmals: deer, bear, elk, beaver, other:
Man	s: hawk, heron, eagle, songbirds, other: nmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other:
Man Fish:	nmals: deer, bear, elk, beaver, other:
Man Fish: Eagle	nmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: e - Songbird
Man Fish: Eagle Poter	nmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: e - Songbird
Man Fish: Eagle Poter Lake	nmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: e - Songbird ntial for Steelhead Salmon, Bullhead Trout, and Chinook Salmon to be in the adjacent waters of Washington.
Man Fish: Eagle Poter Lake b.	hmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: - Songbird htial for Steelhead Salmon, Bullhead Trout, and Chinook Salmon to be in the adjacent waters o Washington. List any threatened or endangered species known to be on or near the site.
Man Fish: Eagle Poter Lake b. Poter	hmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: e - Songbird htial for Steelhead Salmon, Bullhead Trout, and Chinook Salmon to be in the adjacent waters of Washington. List any threatened or endangered species known to be on or near the site. htial for Steelhead salmon, bull trout and Chinook salmon to be in the adjacent waters in
Man Fish: Eagle Poter Lake b. Poter	hmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: - Songbird htial for Steelhead Salmon, Bullhead Trout, and Chinook Salmon to be in the adjacent waters o Washington. List any threatened or endangered species known to be on or near the site.
Man Fish: Eagle Poter Lake b. Poter Lake	hmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: e - Songbird htial for Steelhead Salmon, Bullhead Trout, and Chinook Salmon to be in the adjacent waters of Washington. List any threatened or endangered species known to be on or near the site. htial for Steelhead salmon, bull trout and Chinook salmon to be in the adjacent waters in Washington
Man Fish: Eagle Poter Lake b. Poter Lake	hmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: e - Songbird htial for Steelhead Salmon, Bullhead Trout, and Chinook Salmon to be in the adjacent waters o Washington. List any threatened or endangered species known to be on or near the site. htial for Steelhead salmon, bull trout and Chinook salmon to be in the adjacent waters in Washington Is the site part of a migration route? If so, explain.
Man Fish: Eagle Poter Lake b. Poter Lake	hmals: deer, bear, elk, beaver, other: bass, salmon, trout, herring, shellfish, other: e - Songbird htial for Steelhead Salmon, Bullhead Trout, and Chinook Salmon to be in the adjacent waters o Washington. List any threatened or endangered species known to be on or near the site. htial for Steelhead salmon, bull trout and Chinook salmon to be in the adjacent waters in Washington Is the site part of a migration route? If so, explain.
Man Fish: Eagle Poter Lake b. 11.	a. None b. No C. None	What type of light or glare will the proposal produce? What time of day would it mainly occur? Could light or glare from the finished project be a safety hazard or interfere with views? What existing off-site sources of light or glare may affect your proposal?
11.	a. None b. No C. None d. N/A	What type of light or glare will the proposal produce? What time of day would it mainly occur? Could light or glare from the finished project be a safety hazard or interfere with views? What existing off-site sources of light or glare may affect your proposal?

b.	Would the proposed project displace any existing recreational uses? If so, describe.
No	
c.	Proposed measures to reduce or control impacts on recreation, including recreatio
	opportunities to be provided by the project or applicant, if any:
N/A	
	oric and cultural preservation
a.	Are there any buildings, structures, or sites, located on or near the site that are over 45 years of
	listed in or eligible for listing in national, state, or local preservation registers? If so, specifical describe.
Unkn	
OTIKI	OWIT
b.	Are there any landmarks, features, or other evidence of Indian or historic use or occupation? Th
D.	may include human burials or old cemeteries. Are there any material evidence, artifacts, or area
	of cultural importance on or near the site? Please list any professional studies conducted at the
	site to identify such resources.
No	
c.	Describe the methods used to assess the potential impacts to cultural and historic resources o
•	or near the project site. Examples include consultation with tribes and the department of
	archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.
Revie	ew of the Washington Information System for Architectural & Archaeological Records Data
publi	shed by the Washington State Department of Archaeological & Historical Preservation
d.	Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance t
	resources. Please include plans for the above and any permits that may be required.

Tran	nsportation
a.	Identify public streets and highways serving the site or affected geographic area and describ
	proposed access to the existing street system. Show on site plans, if any.
Fores	st Ave SE & W Mercer Way
	·

	Is the site or affected geographic area currently served by public transit? If so, generally described in the approximate distance to the nearest transit stop? Here is a bus service on W Mercer Way.
c.	How many additional parking spaces would the completed project or nonproject proposal h How many would the project or proposal eliminate?
None	
	Mill the annual require any new original requirements to existing upode at rests and estains. It
d.	Will the proposal require any new or improvements to existing roads, streets, pedestrian, big or state transportation facilities, not including driveways? If so, generally describe (indicated that public or private)
No	whether public or private).
е.	Will the project or proposal use (or occur in the immediate vicinity of) water, rail, o
No	transportation? If so, generally describe.
No	
f.	How many vehicular trips per day would be generated by the completed project or propose known, indicate when peak volumes would occur and what percentage of the volume would trucks (such as commercial and non-passenger vehicles). What data or transportation mowere used to make these estimates?
None	
g.	Will the proposal interfere with, affect or be affected by the movement of agricultural and for products on roads or streets in the area? If so, generally describe.
No	
h.	Proposed measures to reduce or control transportation impacts, if any:
N/A	
Publi	c services
a.	Would the project result in an increased need for public services (for example; fire protection, health care, schools, other)? If so, generally describe.
No	
b.	Proposed measures to reduce or control direct impacts on public services, if any.

	N/A
16.	Utilities
	a. Check utilities currently available at the site:
	Electricity ☑ Natural Gas ☑ Water ☑ Refuse Service ☑ Telephone □ Sanitary sewer □ Septic system ☑ Other □
	 b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed. N/A
C.	SIGNATURE
	I certify (or declare) under penalty of perjury under the laws of the State of Washington that the answers to the attached SEPA Checklist are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS

(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; productions, storage, or release of toxic or hazardous substances; or production of noise?

	Proposed measures to avoid or reduce increases are:
2.	How would the proposal be likely to affect plants, animals, fish, or marine life?
	Proposed measures to protect or conserve plants, animals, fish, or marine life are:
3.	How would the proposal be likely to deplete energy or natural resources?
	Proposed measures to protect or conserve energy and natural resources are:
4.	How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?
	Proposed measures to protect such resources or to avoid or reduce impacts are:
5.	How would the proposal be likely to affect land and shoreline use, including whether it would allow or
	encourage land or shoreline uses incompatible with existing plans?
	Proposed measures to avoid or reduce shoreline and land use impacts are:

о.	utilities?
	Proposed measures to reduce or respond to such demand(s) are:
7.	Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
