## Review Response

Date: 2/9/2023

Project Name: Seda Dock & Bulkhead

Response To: Seda Dock (SHL23-015, SEP23-004)

To Grace Manahan,

This letter is in response to the corrections for SHL23-015 & SEP23-004. Below are our responses to the questions/comments from 2/6/2023.

Arborist:

1. From aerial photos it appears regulated trees are in the area of work for the demolition of the bulkhead and walkways. Show all trees over 10" in diameter on the plan with tree protection fencing at their driplines or greatest extent possible.

**There is one oak tree located near the southern property line – it is several feet landward of the proposed demolition area, and care will be taken to protect it during the work. Pages A8 & A9 of the plan set have been updated to accurately reflect this. All other nearby trees shown in aerial photos are across the property lines and will not be impacted by the work.**

Thank you for your time,

Madison Johnson
