Re: ***Myre Boatlift Repair, Permit #SHL23-023 Review Letter; 6215 77th Ave SE***

Dear Grace,

We received the letter from you regarding the above referenced project. Thank you for further clarifying the information in the review letter in the follow-up phone call with me.

The response provided will be in the order it was presented in the letter.

Planning:

1. Provide a title report less than 30 days old.

Please see the title report dated March 27, 2023 that was uploaded along with this letter.

2. Show how the project is in compliance with MICC 19.13.050(F)(1)+(2)

3. Further show how the proposed work is maintenance and repair.

I will address my response to both number 2 and 3 above together in the same response.

We are requesting a Shoreline Exemption. The project is being proposed as an exemption as maintenance and repair. The lift is old and in need of complete repair. It is also a galvanized lift that is to be replaced by an aluminum lift. Galvanized lifts are no longer allowed and are considered harmful to the environment.

The method of repair of the lift and removal of the galvanization is replacement.

If you have any questions or comments, please feel free to call me at (206) 571-5993 email me at becky@marinellc.com.

Respectfully,

Becky Henderson
