# **ENVIRONMENTAL CHECKLIST**

#### **PURPOSE OF CHECKLIST**

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

### PRE-APPLICATON MEETING

A pre-application meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

**Please note:** pre-application meetings are held on Tuesdays, by appointment. To schedule a meeting, submit the meeting request form and the pre-application meeting fee (see fee schedule). Meetings must be scheduled at least one week in advance. Applicants are required to upload a project narrative, a list of questions/discussion points, and preliminary plans to the Mercer Island File Transfer Site one week ahead of the scheduled meeting date.

## **SUBMITTAL REQUREMENTS**

In addition to the items listed below, the code official may require the submission of any documentation reasonably necessary for review and approval of the land use application. An applicant for a land use approval and/or development proposal shall demonstrate that the proposed development complies with the applicable regulations and decision criteria.

- A. Completed pre-application.
- B. **Development Application Sheet.** Application form must be fully filled out and signed.
- C. **Development Plan Set.** Please refer to the Land Use Application- Plan Set Guide in preparing plans.
- D. **Title Report.** Less than 30 days old.
- E. SEPA checklist.

#### **INSTRUCTIONS FOR APPLICANTS**

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later. Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you. The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

## **USE OF CHECKLIST FOR NONPROJECT PROPOSALS**

For nonproject proposals complete this checklist and the supplemental sheet for nonproject actions (Part D). The lead agency may exclude any question for the environmental elements (Part B) which they determine do not contribute meaningfully to the analysis of the proposal. For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

| Α. | BACKGROUND   |                            |              |  |  |
|----|--|----------------------------|--------------|--|--|
| 1. | Name of proposed project, if applicable:                       |                            |              |  |  |

| 6. | Proposed timing or schedule (including phasing, if applicable) | ·                          |              |  |  |
| 0. |  | ,•                         |              |  |  |
|    | Winter 2023  |                            |              |  |  |
|    |  |                            |              |  |  |

| 7.  | Do you have any plans for future additions, expansions, or further activity related to or connected with this proposal? If yes, explain:  No   |
|-----|--|
|     |  |
| 8.  | List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal:  |
|     | No Net Loss Report   |
|     |  |
| 9.  | Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain:  None Known  |
|     |  |
| 10. | List any government approvals or permits that will be needed for your proposal, if known:  Shoreline Substantial Development Permit, LOP from Army Corps, HPA from WDFW  |
|     |  |
| 11. | Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain  |
|     | aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)  |
|     | Remove a portion of the existing shared fixed pier (approx. 315sf) and associated wood piles (nine total).  Drive one new pile at waterward end of the existing pier to support the reconfigured structure. (Note this   |
|     | work is under a separate permit and being completed by others. Remove one existing bottom based  |
|     | boatlift and canopy. Relocate one existing bottom based boatlift to the new pier. Install new fully grated   |
|     | _single family pier (approx. 528sf overwater) & 552sf total. Install new native shoreline plantings.   |
|     |  |
| 12. | Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. |

| 6. | Energy and natural resources  |
|    | <ul> <li>a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing etc.</li> <li>Solar power will be used to charge the batteries for the existing lift. The pier will have electric power.</li> </ul> |
|    |   |
|    | <ul> <li>b. Would your project affect the potential use of solar energy by adjacent properties? If so generally describe.</li> </ul>  |
|    | No  |
|    | <ul> <li>c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any: None</li> </ul>  |
| _  |   |
| 7. | a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fir and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so describe.   |
|    | No  |
|    | i. Describe any known or possible contamination at the site from present or past uses.  None known  |
|    | <ul> <li>ii. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipeline located within the project area and in the vicinity.</li> <li>None known</li> </ul>  |
|    | Treme rate with   |
|    | iii. Describe any toxic or hazardous chemicals that might be stored, used, or produced durin<br>the project's development or construction, or at any time during the operating life of th<br>project.   |
|    | None known  |

|          | iv. Describe special emergency services that might be required.   |
|----------|---|
|          | v. Proposed measures to reduce or control environmental health hazards, if any:   |
| b.       | loise  i. What types of noise exist in the area which may affect your project (for example: traffic equipment, operation, other)?  one  |
|          | ii. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.  |
|          | iii. Proposed measures to reduce or control noise impacts, if any:  |
| a.       | nd shoreline use  What is the current use of the site and adjacent properties? Will the proposal affect current land ses on nearby or adjacent properties? If so, describe.  gle family residential   |
| b.       | las the project site been used as working farmlands or working forest lands? If so, describe. How nuch agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many cres in farmland or forest land tax status will be converted to nonfarm or nonforest use? |
| c.<br>Si | Describe any structures on the site.<br>e family residence and pier   |
| d.       | Vill any structures be demolished? If so, what?   |

|          | Yes, a portion of the existing shared pier will be removed and its associated piles. (Note: this work is   |
|----------|--|
|          | being completed under a seperate permit to be done by others. A ground based boatlift with canopy  |
|          | will also be removed.  |
|          | e. What is the current zoning classification of the site?  R-15  |
|          |  |
|          | f. What is the current comprehensive plan designation of the site? R-15  |
|          |  |
|          | g. If applicable, what is the current shoreline master program designation of the site?  Urban Residential   |
|          |  |
|          |  |
|          | h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.  Yes, Lake Washington                                    |
|          |  |
|          | i. Approximately how many people would reside or work in the completed project?  Not Applicable  |
|          |  |
|          | <ul><li>j. Approximately how many people would the completed project displace?</li><li>None</li></ul>  |
|          |  |
|          |  |
|          | k. Proposed measures to avoid or reduce displacement impacts, if any:  None  |
|          |  |
|          | Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:  None  |
|          | None   |
|          |  |
| 9.       | Housing  |
| <u> </u> | <ul> <li>a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.</li> <li>Not Applicable</li> </ul> |
|          |  |

|     | <ul> <li>Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or<br/>low-income housing.</li> </ul>   |
|-----|--|
|     | None   |

|     |  |
| 10. | Aesthetics   |
|     | <ul> <li>a. What is the tallest height of any proposed structure(s), not including antennas? What is the principal exterior material(s) proposed?</li> <li>Approximately 3' above ordinary high water</li> </ul> |
|     | Approximately 6 above drainary high water  |
|     | b. What views in the immediate vicinity would be altered or obstructed?  |
|     | None   |
|     |  |
|     | c. Proposed measures to reduce or control aesthetics impacts, if any:  None  |
|     |  |
| 11. | Light and glare  |
|     | a. What type of light or glare will the proposal produce? What time of day would it mainly occur?  None  |
|     |  |
|     | b. Could light or glare from the finished project be a safety hazard or interfere with views?  No  |
|     |  |
|     | c. What existing off-site sources of light or glare may affect your proposal?  None  |
|     |  |
|     | d. Proposed measures to reduce or control light and glare impacts, if any:  None   |
|     |  |
| 12. | Recreation   |
| 14. | a. What designated and informal recreational opportunities are in the immediate vicinity?  |
|     | Boating Fishing and swimming   |

|     | b. Would the proposed project displace any existing recreational uses? If so, describe.                    |
|-----|--|
|     | No   |
|     |  |
|     |  |
|     |  |
|     | c. Proposed measures to reduce or control impacts on recreation, including recreation                      |
|     | opportunities to be provided by the project or applicant, if any:  |
|     | None   |
|     |  |
|     |  |
|     |  |
| 13. | Historic and cultural preservation   |
|     | a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old   |
|     | listed in or eligible for listing in national, state, or local preservation registers? If so, specifically |
|     | describe.  |
|     | No   |
|     |  |
|     |  |
|     |  |
|     | b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This      |
|     | may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas          |
|     | of cultural importance on or near the site? Please list any professional studies conducted at the          |
|     | site to identify such resources.   |
|     | None known   |
|     |  |
|     |  |
|     | c. Describe the methods used to assess the potential impacts to cultural and historic resources on         |
|     | or near the project site. Examples include consultation with tribes and the department of                  |
|     | · · · · · · · · · · · · · · · · · · ·  |
|     | archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.                |
|     | None   |
|     |  |
|     |  |
|     | d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to            |
|     | resources. Please include plans for the above and any permits that may be required.                        |
|     | None   |
|     |  |
|     |  |
| 4.5 |  |
| 14. | Transportation   |
|     | a. Identify public streets and highways serving the site or affected geographic area and describe          |
|     | proposed access to the existing street system. Show on site plans, if any.                                 |
|     | E. Mercer Way  |
|     |  |
|     |  |

|     | <ul><li>b. Is the site or affected geographic area currently served by public transit? If so, generally describe.</li><li>If not, what is the approximate distance to the nearest transit stop?</li><li>Service at E. Mercer Way</li></ul>  |
|-----|---|
|     |   |
|     |   |
|     | <ul> <li>c. How many additional parking spaces would the completed project or nonproject proposal have?</li> <li>How many would the project or proposal eliminate?</li> <li>No Change</li> </ul>  |
|     | No Change   |
|     | d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).   |
|     | No No   |
|     |   |
|     |   |
|     | e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.  |
|     | No  |
|     |   |
|     |   |
|     | f. How many vehicular trips per day would be generated by the completed project or proposal? If<br>known, indicate when peak volumes would occur and what percentage of the volume would be<br>trucks (such as commercial and non-passenger vehicles). What data or transportation models<br>were used to make these estimates? |
|     | No Change   |
|     |   |
|     | <ul> <li>g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.</li> <li>No</li> </ul>  |
|     |   |
|     |   |
|     | h. Proposed measures to reduce or control transportation impacts, if any:  None   |
|     |   |
|     |   |
| 15. | Public services   |
|     | <ul> <li>a. Would the project result in an increased need for public services (for example; fire protection, police protection, health care, schools, other)? If so, generally describe.</li> <li>No</li> </ul>   |
|     |   |
|     |   |
|     | b. Proposed measures to reduce or control direct impacts on public services, if any.  |

## **SEPA RULES**

### SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS

(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; productions, storage, or release of toxic or hazardous substances; or production of noise?

|    | Proposed measures to avoid or reduce increases are:   |
|----|---|
|    |   |
|    |   |
| 2. | How would the proposal be likely to affect plants, animals, fish, or marine life?   |
|    |   |
|    | Proposed measures to protect or conserve plants, animals, fish, or marine life are:   |
|    |   |
|    |   |
| 3. | How would the proposal be likely to deplete energy or natural resources?  |
|    |   |
|    | Proposed measures to protect or conserve energy and natural resources are:  |
|    |   |
| 4. | How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands? |
|    |   |
|    | Proposed measures to protect such resources or to avoid or reduce impacts are:  |
|    |   |
| 5. | How would the proposal be likely to affect land and shoreline use, including whether it would allow or  |
|    | encourage land or shoreline uses incompatible with existing plans?  |
|    |   |
|    | Proposed measures to avoid or reduce shoreline and land use impacts are:  |
|    |   |
|    |   |

| о. | utilities?   |
|----|--|
|    | Proposed measures to reduce or respond to such demand(s) are:  |
|    |  |
| 7. | Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment. |
|    |  |
