**RE: Modify existing wireless communication facility – 6409a application
 SE02629A, Mercer Island WT
 4350 – 88th Ave. SE, Mercer Island, WA 98040
 Zoning: R-9.6**

Dear City of Mercer Island,

This is a 6409a application to modify an existing wireless communication facility. This wireless facility was established in 1998-1999.

Proposal:

T-Mobile Proposes to modify this exiting wireless communication facility on an existing lattice tower. The proposal includes (3) additional antennas (total of (6) antennas when complete), plus (6) remote radio units and (1) COVP. One (1) equipment cabinet on the ground will be replaced with (1) new cabinet, for a total of (3) cabinets.

Tower modification work is required so that the existing structure will support the proposed equipment on the tower.

Submittal documentation:

1. Signed Development Application;
2. Wireless Communication Facility Eligible Facility Request – Submittal Requirements checklist;
3. Project Narrative;
4. Construction drawings for the proposed project;
5. Proof of Exempt status;
6. NIER report.

Let me know if you have any questions or need additional information.

Thank you.
