Community Planning & Development
City of Mercer Island
9611 SE 36th Street
Mercer Island, WA 98040

Dear Community Planning & Development:
Project Description: SD17 AT&T Upgrades

I am submitting an application for pre-development services for WCF modification. The modifications will be taking place on an existing rooftop cell site located at: **6112 SE 28th St, Mercer Island, WA 98040**. The height of the tower and the lease space will not be affected by this scope of work. The scope of work qualifies as an Eligible Facilities Request for a minor modification under Section 6409a. (Please note: all work will be performed wholly within the existing premises and utility easements; this site is free of any concealment features; and the project otherwise complies with the site's original conditions of approval.)

<u>Component</u>	<u>Federal Section 6409 Limits</u>	<u>AT&T's Proposed Modification</u>
Increase height of original structure	10 feet or less	No increase in height.
Antennas extending horizontally from edge of structure	6 feet or less	Antennas extend less than 6 feet horizontally from edge of structure
Additional equipment cabinets	4 or fewer, with no cabinets larger than the existing cabinets	No additional equipment cabinets will be installed.

Below is a detailed project description for your review:

AT&T proposes to modify an existing unmanned telecommunications facility with the replacement of (8) panel antennas with (8) proposed panel antennas and installation of (3) proposed active antennas c/w integrated radios, (3) proposed DC-6 surge suppressor, (3) proposed 6/6 DC trunk, (3) proposed 12 pair fiber cable and (3) proposed tri-pod antenna mount on existing rooftop.

Sincerely,

Laura Mauriello
