Hello:

We'd like to request you waive the requirement for a SEPA checklist for our proposed site development in accordance with WAC 197-11-800(25). Our proposed wireless service facility is a collocation of new equipment, and it does not substantially change the physical dimensions of the structure to which we will attach. The antenna attachment does not increase the height of the existing structure at all, nor does it add an appurtenance to the existing structure that protrudes more than twenty feet. Therefore, under this site development meets the categorical exemption requirements laid out in WAC 197-11-800(25) and does not require a SEPA checklist.

We'd be glad to discuss any other questions you may have to ensure your concerns are alleviated.

Thank you,

Eric Bond
