**Subject:** RE: Provide Valuation for Building Permit

Hi Holly,

Circling back on the valuations for the building permit. They are as follows:

- \$185,000 – vault
- \$142,000 – walls

This information will also be added the plan set cover sheet in the permit submittal package.  
Thanks!

Matt

Hi Holly,

To ensure I get you the correct information, I have a couple of follow-up questions. For the vault, the number I have includes labor, materials, and equipment, but does not include any of the additional piping or pieces to connect it to the existing system. Would you like those figures included, also?

Matt

Hi Matt,

I thought of one more thing that I know I will need with your permit applications.

For the building permit, I'll need you to include the valuation of any portion of work that requires a building permit. I have to admit, I haven't spend much time looking at the plan, so I don't know which portions require the building permit.

Things like retaining walls and vaults typically require a building permit – so we'd need to know the valuation (estimated construction cost labor plus materials) of those kind of items. Let me know if this needs more clarification.

Thanks,  
Holly
