Subject: small cell towers in Ellis Pond/Dawn Vista neighborhood

Hello,

Our neighborhood has been meeting and discussing the impending construction of a cellular tower next to Ellis Pond, also with concern about the potential for additional towers to be erected in the future in our neighborhood, which to date has avoided the visual clutter of poles and wires. I would like to add my voice to the other neighbors who are concerned about how this may negatively impact our neighborhood aesthetics. I would like to request the city to work with the carriers to minimize the addition of new towers in the neighborhood where possible, and for those towers that must go in, to enact and enforce strong aesthetic (visual and noise) guidelines to minimize the impact.

Sincerely,

Tom Henderson

9222 SE 46th St., Mercer Island
