Mr. Thomas and Mr. Cole:

This email is a follow up on the Cherberg Dock permit applications which have been extended due to litigation as set forth in the attached extension request and City approval from this past January. The extension is to August 11, 2022. You also received my letter to you dated April 27, 2022, providing an update in this matter. As you may know, the Cherbergs' agent Seaborn uploaded revised plans and materials to the City on Friday, including a Joint Use Agreement signed by the Griffiths and Cherbergs. A copy of the signed JUA is attached.

The extension granted by the City was due to pending litigation related to the JUA. Now, however, the litigation is concluded and the fully executed JUA has been submitted to the City. As a result, it would seem that the City can process the applications according to standard procedures and the Cherbergs through their agent Seaborn can respond to any requests for information in due course according to City requirements and deadlines. Thus, it would seem that the extension has served its purpose and that a new extension is not needed.

However, if the City believes for any reason that a new extension is needed for the City to continue processing the permit applications, then the Cherbergs hereby request any extension needed to continue the life of these permit applications until final review and approval by the City.

Please confirm your understanding in this matter at your earliest opportunity. For full disclosure, I am copying the City Attorney Bio Park, attorneys for the Griffiths, and the attorney for the Cherbergs. Please contact me, or have the City Attorney contact me, if you have any questions or need more information.

Thank you for your past cooperation in this matter. The Cherbergs look forward to moving these applications forward to final approval.
